

**Do you work with forklifts in busy
warehouses?**

ORLACO | Official Dealer

Precision at Height with Fork View, View-on-Forks, and Mid-Mast View Camera Solutions

Placing pallets at great heights? That requires precision. Eliminate the risk of damage or danger using ORLACO Camera solutions

View on Forks Camera :

No drilling needed – the camera is mounted between the forks for optimal visibility.

Mid Mast View Camera :

Provides an excellent overview at height after the fork carriage has been lifted

Fork View Camera :

A camera mounted on one fork provides crystal-clear visibility of the forks, perfect for high racks.

ORLACO Cameras and monitors are designed to work under -40°C to +85°C

Rear View Camera:

With a Rear View camera, blind spots behind the forklift are eliminated.
